CALL CENTER

OPEN 24 HOURS

2-1-1

(<https://coronavirus.health.ok.gov/>)

ATTENTION: All test results conducted through the OSDH public health laboratory are sent to the ordering physician or submitting clinical facility. Results will not be provided by phone, nor will the status of the pending test be advised by phone. If test results are positive, public health officials initiate an investigation, which results in notifying the patient and provider to conduct the case investigation and contact tracing.

Current Situation

COVID-19 is a virus identified as the cause of an outbreak of respiratory illness first detected in Wuhan City, Hubei Province, China in 2019 and has since spread globally into a pandemic. Symptoms of COVID-19 include fever, cough, and shortness of breath. While roughly 80% of cases report mild symptoms, some progress into severe pneumonia and multi-organ failure and can lead to death. Current data indicates the risk of death for those contracting COVID-19 notably increases for individuals above the age of 60 or for individuals with autoimmune conditions. On January 21, 2020, the first set of individuals in the [United States](https://www.cdc.gov/coronavirus/2019-ncov/cases-updates/cases-in-us.html?CDC_AA_refVal=https%3A%2F%2Fwww.cdc.gov%2Fcoronavirus%2F2019-ncov%2Fcases-in-us.html) (https://www.cdc.gov/coronavirus/2019-ncov/cases-updates/cases-in-us.html?CDC_AA_refVal=https%3A%2F%2Fwww.cdc.gov%2Fcoronavirus%2F2019-ncov%2Fcases-in-us.html) tested positive for COVID-19. The virus has since spread across all 50 states and the number of individuals testing positive for COVID-19 continues to rapidly grow each day.

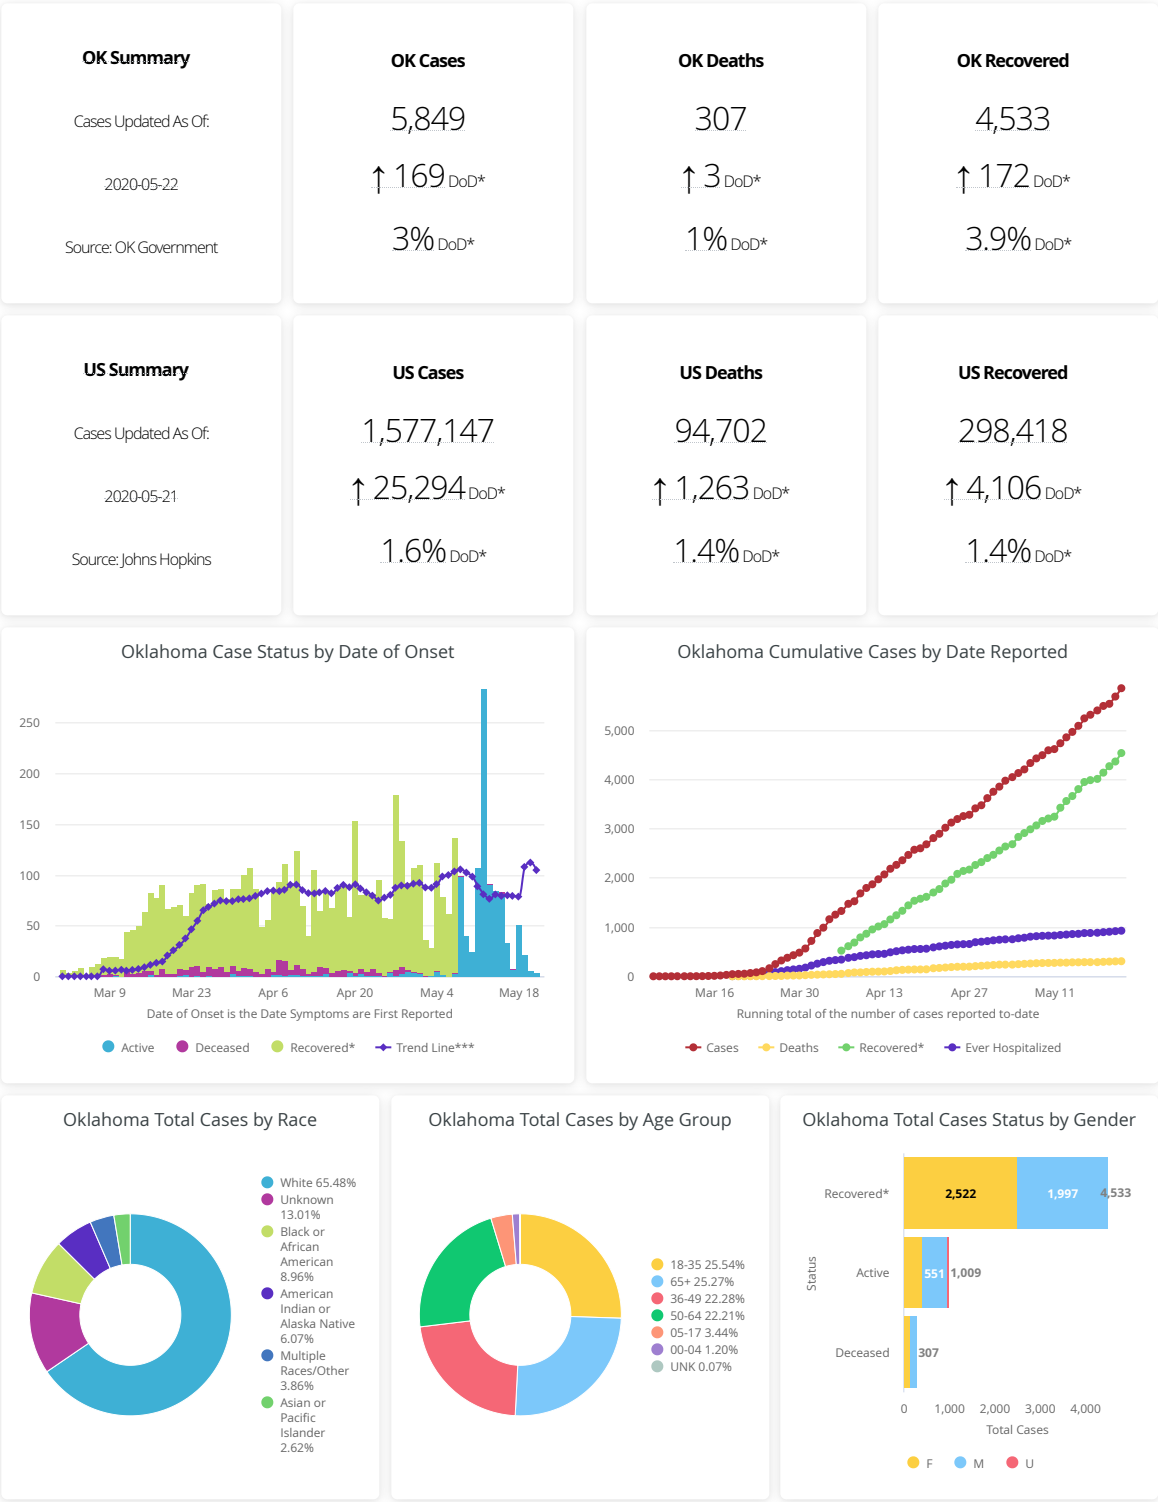

COVID-19 Mobility Dashboard

Additional data is available for review in the Executive Order Report (/executive-order-reports) and the Weekly Epidemiology and Surveillance Report (/weekly-epidemiology-and-surveillance-report).

DoD* indicate the delta (↑ ↓) or rate of change (%) over the past 24 hours only.

**Data shown are preliminary and subject to change as additional information is obtained.

Race/Ethnicity containing missing data is bucketed into the unknown category.

*Recovered: currently not hospitalized or deceased and 14 days after onset/report. Recoveries calculated beginning on 4/6/2020.

***Other: Contains Missing, Unknown, Small Cities, Towns or Zip Codes (<100 population)

Trend Line*** is a 7 day rolling average of the number of the confirmed cases by date of symptom onset or positive test result for asymptomatic cases.
A 7 day lag has been applied to the trend line based on information collected to-date for the week of 4/12 and 4/18 where within 7 days of onset date 90% of the cases had been reported.

Every week, 11 older adults die of a fall-related injury in Oklahoma. Most falls happen in predictable, preventable ways. Follow these tips to reduce your fall risk. To learn more visit falls.health.ok.gov.

PREVENTING FALLS

ENVIRONMENT

Most falls happen in homes and are entirely preventable.

- All rooms in homes should be well-lit. Put in brighter light bulbs, and install night lights.
